

# Bookshelf Speaker

# SYNERGY B-3

Power, detail and emotion define the sound that pumps out of a Synergy Series B-3 bookshelf loudspeaker. This masterpiece of design and performance provides an exceptional dynamic punch that makes it a great alternative for living spaces that won't accommodate a tower speaker.

This third generation Synergy bookshelf model benefits from more than 55 years of Klipsch engineering experience and aesthetic upgrades that are representative of a new quality of craftsmanship.

It offers a winning combination of powerful bass with remarkable detail and high volumes with low distortion, making it a perfect delivery source for today's advanced digital music formats.

The B-3 gets its performance thrills by employing a 6.5-inch IMG woofer and 1-inch aluminum-dome compression driver coupled to an exclusive square Tractrix® Horn. It also features a rear-mounted port that increases efficiency and extends bass response.

Available in a black finish with titanium accents, the contemporary look of the B-3 is two-fold. With its grille on, the B3 offers a sense of elegance that nicely blends in with your home décor, but take the grille off and you get an aggressive and powerful statement that exudes extreme performance.

The Synergy Series B-3 is a stylish and high-performance choice for the discerning audiophile who requires towering achievement in a bookshelf design.

- 6.5-inch IMG woofer
- 1-inch aluminum-dome compression driver
- Exclusive square Tractrix® Horn
- Available in a black finish with titanium accents
