

Custom 2

Custom 2 earphones utilize dark gray patent-pending Contour Ear Gels that are anatomically designed to accurately fit inside the human ear canal. These soft, oval silicon tips reduce ear fatigue as well as provide an amazing seal for excellent noise isolation and bass response.

Because ear canal measurements vary, Custom 2 comes with five different washable ear gel sizes: small, medium, and large single flange designs, as well as small and large double flange designs.

For perfect exterior comfort, flexible ear wires bend over and around the ears so they can be customized to each user.

Dynamic earphones are a must for true-to-life audio experiences and Custom 2 makes it a reality. Coupling over 60 years of audio expertise with exclusive KG534 dual-balanced armatures, Custom 2 headphones deliver clear highs and thundering lows.

Klipsch has gone to great lengths to ensure the long-lasting durability of Custom 2, including its 50-inch-long cables. Put through extensive "real world" testing, these headphones feature strain relief at every cable connection point to help prevent wire damage. A special PVC Wireguard jacket prevents the wires from becoming exposed and frayed.

Great iPod® headphones, Custom 2 is also compatible with the iPhone™ and virtually any device with a headphone jack. These headphones come with a high-quality vinyl carrying case that will also fit an 80G iPod, an airplane adaptor, five sets of different-sized ear gels, and an ear gel cleaning tool.

- Premium full-range design
- Balanced dual drivers
- Patent-pending design with enhanced bass
- Superior noise isolation
- Customizable comfort and fit
- Compatible with iPods®, iPhones™ and other portable devices

SPECIFICATIONS

Sensitivity	112 Decibel (dB)
Nominal Impedance	16 ohms
