

PRO MEDIA 2.1

LEGENDARY SOUND FROM A LEGENDARY PRODUCT

The Klipsch ProMedia 2.1 was the first three-piece computer system to be THX® certified, and its introduction singlehandedly raised the bar on what is defined as exceptional sound from CD's, MP3's and streaming radio. Many have tried to copy its groundbreaking performance, but the ProMedia 2.1 still reigns supreme over anything near its price range.

EXCLUSIVE HORN-LOADED TECHNOLOGY

Klipsch Micro Tractrix horns make a major contribution to the Promedia 2.1's amazing proficiency. Their highly efficient design reproduces more sound from every watt of power, controlling the dispersion of that sound and sending it straight to your ears for clarity and lifelike impact no other system can duplicate.

CLEAN BASS OUTPUT AT ALL VOLUME LEVELS

The two-way satellites' 3" midbass drivers blend perfectly with the Promedia 2.1's solid, 6.5" side-firing, ported subwoofer for full bandwidth bass response you can actually feel. With a separate subwoofer volume control, you can adjust for the best bass for what you're listening to.

PERFORMANCE THAT CREATES FLEXIBILITY

With its plug and play setup and convenient 3.5mm input, the Promedia 2.1 can double from anything from a TV sound enhancer to a 2.1 Home Theater system. It's 200 watts of dynamic system power can fill even a larger room with sound. The headphone jack allows for private listening when desired.
