WDST™ (WIDE DISPERSION SURROUND TECHNOLOGY)

Provides maximum surround coverage and placement flexibility

ALUMINUM DIAPHRAGM COMPRESSION DRIVER (TWEETER)

Produces crystal-clear high frequencies

IMG WOOFER

Creates tight musical bass

KLIPSCH BELIEVES FOUR PRINCIPLES TO BE THE FOUNDATION FOR GREAT SOUND:

- **HIGH EFFICIENCY:** Every Klipsch speaker is horn-loaded because the horn shape is perfect for accurate and dynamic sound transmission. Greater efficiency means lower distortion which means maximum realism.
- **DYNAMIC RANGE:** Klipsch horn technology reproduces the softest sounds with remarkable clarity and detail and the loudest sounds with no harshness or distortion. That's what's known as the best of both worlds.
- **CONTROLLED DIRECTIVITY:** Unique Klipsch horn technology means speakers that more accurately direct sound. The result is a more lifelike soundstage and way more "Whoa – Did you hear that?"
- **FLAT FREQUENCY RESPONSE:** We believe in delivering exactly the sound artists intend. Hence, Klipsch's stunningly accurate speakers – with no unnatural highs, mids or lows.

SPECIFICATIONS	S-20
Frequency Response	83Hz-23KHz ± 3dB
Power Handling	100W RMS / 400W Peak
Sensitivity	91dB @ 2.83V / 1m
Nominal Impedance	8 ohms compatible
Crossover Frequency	2600Hz
High Frequency Drivers	Dual 1" (2.54cm) Aluminum diaphragm compression driver mated to 90° x 60° square Tractrix® Horn
Low Frequency Drivers	5.25" (13.3cm), IMG woofer
Inputs	Single binding posts
Enclosure Type	Sealed (WDST)
Height	6.85" (17.4cm)
Width	14.3" (36.3cm)
Depth	5.5" (13.9cm)
Mounting	Keyhole Bracket
Weight	7lbs (3.2kg)
Finish	Black Ash vinyl
Built From	2010
