

## Surround Speaker

# WS-24

The WS-24 is for those who want home theater speakers that look as good as they sound. When compared to traditional surround sound designs, the WS-24 is more refined, taking up less space while still delivering Klipsch's engaging high-output, low-distortion sound.

Klipsch engineers managed to generate excellent output and dispersion from this slim speaker by employing an all-new proprietary technology called the XT Tractrix® Horn. Horns have been the driving force behind Klipsch speakers since 1946. XT engineering advances the company's classic, proven technology to new levels of sophistication by altering the surface geometry of the horn for a wide, consistent soundstage. Also, through exclusive Wide Dispersion Surround Technology, or WDST, the WS-24 provides crystal-clear sonic detail in listening areas with less-than-ideal configurations.

Stunningly beautiful, the WS-24 features a timeless wood veneer cabinet finished in espresso or cabernet. While most of the speakers in this category feature domestic veneers, the WS-24 has an exotic, non-endangered Berlinia veneer from West Africa.

The WS-24 cabinet is carefully sanded, sealed and stained. Much like in high-end furniture manufacturing, the stain is then top coated with a polyurethane finish. This spray application involves 10 coats, with sanding in-between each coat to achieve the proper thickness.

- Enveloping surround sound, precise localization
- Premium titanium tweeters for precise highs
- Fiberglass woofers for amazing lows
- Exotic furniture-grade wood veneer finish
- Keyhole brackets for simple wall mounting

## SPECIFICATIONS

frequency response	93Hz-20kHz +/-3dB
low frequency extension	82Hz
power handling	75 W @ 8 ohms
sensitivity	91dB
nominal impedance	8 Ohms
crossover frequency	2700Hz
high frequency drivers	Dual 1" (2.5cm) Titanium diaphragm compression drivers mated to a 3.75" 80 °x80° Tractrix® Horn
low frequency drivers	Dual 4.5" (11.4cm) high-output, fiberglass cone woofers
enclosure material	MDF
enclosure type	Bass-reflex via dual front-firing ports
height	11.5" (29.1 cm)
width	12.75" (32.4 cm)
depth	7" (17.8cm)
mounting	Dual Keyhole Brackets
weight	11 lbs
finishes	Furniture Grade Wood Veneer available in Cabernet and Espresso
