

XL-12

Engineered by the best in the industry, the XL-12 utilizes a premium titanium diaphragm compression driver and a high-output fiberglass cone woofer.

But what makes this LCR speaker special is an all-new patent-pending Tractrix[®] horn-loaded tweeter with XT[™] technology. For over 60 years, horns have been the driving force behind our stunningly precise sound, and this latest design moves us farther ahead by allowing the slender XL-12 to deliver an extremely smooth response with constant directivity.

Offering more than just a signature sound, the XL-12 also has a signature style. Its beautifully crafted aluminum extruded enclosure, featuring an anodized black-grain finish and high-gloss black accents, is the direct result of our engineers' quest for perfect balance. In fact, it's a look that brings a splash of sophistication to any room.

For increased placement flexibility, the XL-12 can be paired with the company's optional XFS floor stand.

The entire Icon Series is performance art at its best, capturing the spirit of our past and pushing us into the future. It is a brilliant representation of how our products have evolved and remained desirable over time. After just one listen, the Icon sound will be imprinted in your consciousness forever.

- Patent-pending XT[™] Tractrix[®] Horn technology
- Titanium compression driver creates precise high frequencies
- High-output woofer generates hard-hitting intensity
- Mounts to optional XFS floor stand for increased placement flexibility

SPECIFICATIONS

| | |
|-----------------------------|--|
| frequency response | 92Hz-23kHz +/-3dB |
| low frequency extension | 72Hz |
| power handling | 50W continuous / 200W peak |
| recommended amplifier power | 100W |
| sensitivity | 92dB @ 2.83V / 1m |
| nominal impedance | 8 ohms compatible |
| high frequency drivers | 0.75" (1.9cm) Titanium diaphragm compression driver mated to |
| high freq crossover | 2650Hz |
| low frequency drivers | 4" (10.2cm) high-output, fiberglass cone woofer |
| enclosure type | Bass-reflex via front-firing port |
| height | 12" (30.5cm) |
| width | 5.75" (14.6cm) |
| depth | 6" (15.2cm) |
| mounting | Wall mount bracket and center channel accessories included (Also fits optional XFS floor stand) |
| weight | 7.5lbs (3.4kg) |
| finishes | Black anodized w/ high-gloss Black accents |
