

Center Channel Speaker

SYNERGY C-1

The Synergy Series C-1 center channel delivers high-performance quality at the lowest possible price point. This mind-bending performer reveals all the detail and dynamics necessary for a gripping home theater experience.

This third generation Synergy center channel benefits from more than 55 years of Klipsch engineering experience and aesthetic upgrades that are representative of a new quality of craftsmanship.

The C-1 delivers subtle and thrilling performances by employing dual 4-inch magnetically shielded, IMG woofers and a 0.75-inch magnetically shielded, aluminum-dome tweeter coupled to an exclusive square Tractrix® Horn, which increases sensitivity and minimizes room interactions that blur sonic detail.

Available in a black finish with titanium accents, the contemporary look of the C-1 is two-fold. With its grille on, the C-1 offers a sense of elegance that nicely blends in with your home décor, but take the grille off and you get an aggressive and powerful statement that exudes extreme performance.

The C-1 has the panache that allows listeners to hear everything from the faintest whisper to the loudest roar with complete clarity. It is also timbre-matched to the entire range of Synergy speakers.

- Dual 4-inch magnetically shielded, IMG woofers
- 0.75-inch magnetically shielded, aluminum-dome tweeter
- Exclusive square Tractrix® Horn
- Available in a black finish with titanium accents

SPECIFICATIONS
