

## Center Channel Speaker

# SYNERGY C-2

This sonically and aesthetically appealing model has everything a high-performance center channel requires and then some. It provides the fidelity, clarity and power audiences need to transform ordinary living rooms into dynamic theater spaces.

The Synergy Series C-2 center channel offers phenomenal sound and stylish flair at an affordable price point. It has been designed to deliver all the detail, subtleties and dynamics required for the ultimate home theater experience.

This third generation Synergy center channel benefits from more than 55 years of Klipsch engineering experience and aesthetic upgrades that are representative of a new quality of craftsmanship.

The C-2 is a two-way Tapered Array system that utilizes a pair of 5.25-inch magnetically shielded, IMG woofers and a 1-inch magnetically shielded, aluminum-dome tweeter coupled to a square Tractrix<sup>®</sup> Horn, which increases sensitivity and minimizes room interactions that blur sonic detail. The C-2 offers bi-wire capabilities allowing the use of one or two speaker level inputs as desired for improved connectivity.

Available in a black finish with titanium accents, the contemporary look of the C-2 is two-fold. With its grille on, the C-2 offers a sense of elegance that nicely blends in with your home décor, but take the grille off and you get an aggressive and powerful statement that exudes extreme performance.

- Dual 5.25-inch magnetically shielded, IMG woofers
