Set Your Music and Movies Free

KlipschCast™ products take our highly acclaimed, stunningly precise sound to new levels of superiority and simplicity, letting you stream CD-quality music and movie soundtracks throughout your home—with no wires, no holes to drill and no difficult, time-consuming set up.

Meet the KlipschCast family: the CS-700 home theater system and RoomGroove iPod® speaker*. Alone, these award winners are leaders in their respective categories, but put them together and the real magic begins. With a CS-700 and one or more RoomGrooves, you can create a wireless multi-room or whole-house sound solution in a matter of minutes.

CS-700. RoomGroove. Together or separately, they deliver The Ultimate Sound Experience™.

Check out klipsch.com/klipschcast for a KlipschCast video demonstration.

*CS-700 and RoomGroove sold separately.

CS-700: Big Sound in a Com

- Wirelessly broadcasts CD-quality audio
- Universal IR remote directs all system functions
- Satellites are wall mountable using ¼ - 20 inserts (not included)

pact Package

Applying the same kind of horn-loaded magic that makes Klipsch a worldwide leader in the professional cinema industry, the CS-700 brings astonishingly big movie theater sound to the comforts of home.

Sized beautifully to fit into any room, this 2.1 home theater system—featuring just two compact satellites, a wireless subwoofer and an A/V center with Dolby® Virtual Speaker technology—creates enveloping virtual surround sound performances that put you smack-dab in the middle of the action.

Available in a sleek black finish, the CS-700 offers a clean, modern design that fits comfortably into any living environment. Plus, its wireless subwoofer offers complete placement ease. Essentially plug-and-play, the entire system can be operating in as little as 10 minutes.

And through proprietary KlipschCast™ technology, the CS-700 not only transmits CD-quality audio to its wireless subwoofer, but also to the Klipsch® RoomGroove iPod® speaker. So, when you own a CS-700 and one or more RoomGrooves (sold separately), you can wirelessly send music or movie sound throughout your home.

Listen ... Here, There, Everywhere

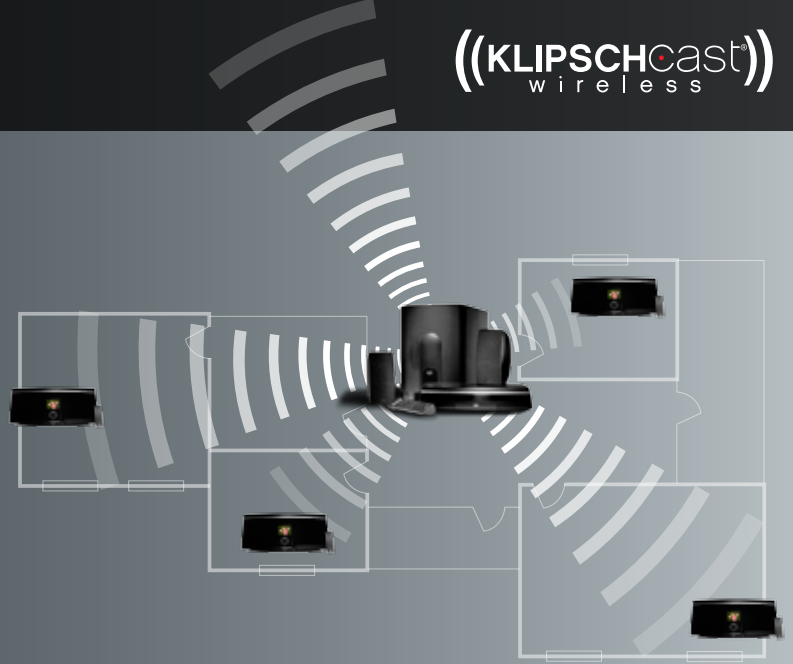
While it may look like an ordinary iPod® speaker, the Klipsch® RoomGroove is far from it. Sure, it brings out the absolute best in your digital music files, but it also wirelessly transmits and receives CD-quality audio.

In fact, when you own multiple RoomGrooves, you'll never miss a beat. With just a touch of a button, you can wirelessly stream your music to other console-equipped rooms—upstairs, downstairs ... wherever!

But wait, there's more. The RoomGroove can also wirelessly broadcast DVD, CD and radio content from our CS-700 home theater system.

Features:

- Dual high-output woofers deliver room-filling bass
- Dual horn-loaded tweeters create precise high tones
- Two hidden, low-turbulence ports let system play louder
- Retractable iPod dock opens and closes via touch sensor
- Accepts and charges iPods with 30-pin connectors
- Apple® universal well inserts accommodate multiple iPod sizes
- Other digital devices connect via auxiliary input
- Wirelessly transmits and receives CD-quality audio
- IR remote control selects different KlipschCast sources

High Tech, Low Effort


With superior wireless competency and dynamic sound performance, our award-winning KlipschCast™ products let you create a hassle-free, high-quality multi-room audio system in mere minutes. In other words, you can now enjoy classic Klipsch® power, detail and emotion in every room of your house without ever being tripped up or tied down!
